01 / BUYING FROM HK HUADING

# Used iPhone buyer brief

Use this when asking for a wholesale quotation. Unknown fields can remain open; agree the actual batch and terms in writing before ordering.

## Specify your demand

| | |
|---|---|
| Models & volume | Models, estimated units per model, and whether mixed models are acceptable. |
| Destination | Country, preferred regional version, physical SIM/eSIM and network requirements. |
| Configuration | Storage and color preferences, plus any acceptable substitutions. |
| Condition | Cosmetic grade, battery threshold, screen/camera/charging acceptance and parts-history tolerance. |
| Commercial scope | Packaging, target delivery window, shipping destination and documents needed for review. |

## Ask before confirming

| | |
|---|---|
| Batch evidence | Request relevant actual-lot photos or inspection records for the proposed quantity. |
| Written offer | Confirm quantities, price basis, grade definitions, payment, delivery terms and exception handling. |

# Used or broken lot brief

Use this when offering devices to HK Huading for assessment. A submitted list is not a purchase offer or acceptance.

## Describe the actual lot

| | |
|---|---|
| Identity & quantity | Model, storage, count and current location; split materially different groups into separate rows. |
| Fault profile | Power-on, screen, battery, camera/Face ID and charging issues; note water damage where known. |
| Account status | Activation Lock and MDM status, provenance and any restrictions. Do not send personal data in a public form. |
| Evidence | Representative device/lot photos, existing inspection summary and available paperwork. |
| Logistics | Current location, packing state, collection or delivery preference and contact person. |

## Agree before movement

| | |
|---|---|
| Assessment | Inspection scope, sampling or full-count method, grading and discrepancy process. |
| Terms | Who pays freight, payment trigger, rejected units, data handling and written purchase terms. |

03 / SHARED REVIEW

# Inspection & acceptance questions

Use these prompts to compare a proposed offer or purchase assessment. They are not a claim that any particular lot has passed inspection.

## Device and batch checks

| | |
|---|---|
| Count & identity | Does the inspected model/storage mix match the written manifest or quotation? |
| Physical condition | How are screen, housing, camera glass and visible wear classified? |
| Function | Which checks cover display, touch, cameras, audio, buttons, charging and connectivity? |
| Battery & parts | How is battery health measured and how are replacement parts or warnings recorded? |
| Locks & data | How are Activation Lock, MDM and data-erasure responsibilities confirmed? |
| Exceptions | What happens if received units differ from the written description? |
